Maybe even better than free.

So try our free and simple filehosting service now. Just upload the file you want to share with your friends and we send you a download link to your file. Our service is completely free for everyone. Simply upload your file and share the link. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. No account or credit card is required to getstarted. You don't need any special software installed to be able to download your files. Files can be downloaded from any computer from our high speedservers. Unfortunately, we can't make that part free. File is free to use with no gotchas and no hidden fees. Keep your files private, or send your download linksonly to friends or family. The cost of that data transfer is covered by your internet service or the data plan on your phone. Alternatively you can choose to shareyour download links on blogs, forums and social networking sites. You can give this download link to your friends by mail or instant messenger. You canupload any type of file (movies, music, documents, images, zip files and more). You decide who you want to share your files with. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. filehosting provides an easy possibility for you to send large files to your friends. If only we could,we surely would! On the other hand, using file can actually save you money. We have no file size limit. Files transferred the old-fashioned way tend to pile upand be forgotten about, eventually costing you money in data storage fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When youshare a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. There are no restrictions onthe number of times a file can be downloaded. Any file in any format can be uploaded and downloaded for free. It is also allowed to link to the download pagefrom websites and communities. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Using file, you cancircumvent those limits without paying to upgrade your team chat service.
