Most of us tend to glance through the manual when we first get our spanking new machine and experiment a little with the settings, then end up picking a couple of settings to stick with forevermore. All the different buttons, symbols and timings might seem daunting, but it's

worthwhile to know how to make the most out of your washer dryer to save you time, energy, money and also, wouldn't you want to take the best care of your clothes? You can also use this function to wash out stains, just be sure to first try removing the stain while it's fresh by dabbing it with a bit of soap water before popping it in the wash. It pretty much guarantees that you'll never have to wash any laundry by hand ever again. <https://1-pigeon.com/userfiles/1599622815.xml>

To keep things simple, here are 5 easy to remember categories: Cottons Standard washing programme for textiles made of cotton or linen; EasyCare For textiles made of synthetic materials or blended fabrics; Mixed Load For washing natural and synthetic textiles together in a single load; HygieneCare Pretreat dry laundry by hot air followed by a low temperature washing cycle to achieve the most hygienic wash results for nondelicate fabrics. Drum Clean To maintain the hygiene of the washer drum and remove residual lint. Materials such as wool or silk may be on the nono list, but its good to check the labels and make a mental note of items that cant go in the dryer. There are two different types of drying programmes Gentle and Intensive so pick the one that suits your needs. Regular cotton items or lighter clothing would be more appropriate for a Gentle Dry, while towels and sheets would be better suited for Intensive Dry. Now that you know all that your washer dryer can do, I bet you can't wait to try out a new setting with your next load of laundry! As a general rule of thumb, always follow the temperature and wash programme selection instructions on the care label to keep your clothes in tiptop condition. A dishwasher washes dishes and utensils both quickly and precisely, giving you the luxury of relaxing at home without having to worry about washing up after your meals. including without limitation cabinetry. Send a Houzz Gift Card. Its a Bosch WAS2016UC. I downloaded the manual from Bosch but still cant figure it out. Does anyone know where is for what I think the middle one is for fabric softener. Also, can you use liquid bleach. And, if so, where does that go In my search for this information Ive been really horrified to read about all the negatives experiences with this washer due to mold and smell. I am really hoping for the best here. Im kind of at my wits end. Thanks to all for any info. Close servant stairs for larger bathroom or keep it Q Comments 42 lbtravis, we did keep the stairs. I dont mind going up and down the stairs for laundry, I see it as a workout and suspect I reach my fitbit goals thanks to my laundry trips haha. That being said, I was thinking about addind a laundry chute eventually so we wouldnt need to keep hampers in bedrooms. I also bought smaller laundry basket that my kids are able to carry up and down the stairs. They sometimes have to do four of five trips, but its never a big deal, theyre full of energy. I believe the decision of keeping the stairs has more to do with emotions than reason. I love old houses and loved that feature when we moved in. I designed the kitchen around them. How do you feel about your servant staircase. Are you doing this with resale in mind. I keep telling myself that if we ever need to sell, buyers will make the changes they want whatsoever. Its hard enough to anticipate our own needs for a 5 year span, Im not going to start guessing potential buyers needs. Weve been living with the new bathroom for about a month now. Were still waiting for some custom mirrors to be installed next week. Ill post pictures once its completely finished..See More what do do with tiny bedroom. Q Comments 45 The oyster white will work.

Then you can add color which is changeable when you feel the need in accessories. Very well done woodwork. This resource is a keeper. It looks exactly like the suggestion in the photo..See More Bad design that makes you utter WHY. Q Comments 252 Haha, Jan, you are once again right on the money. I cant remember the last time I had the need to use a straw to drink anything. I grew up thinking that straws were for children who couldnt drink from a cup. Why adults need them is beyond me. And yes, in just under 2 months, the state of NY will join Suffolk County in banning those miserable thin plastic grocery bags, and I say good riddance to them. Ive been bringing my own reusable bags for quite a while now, and it is much better. It always kills me to see the cashier try to pack a ginormous laundry detergent container or 6pack of soda in a thin plastic bag, which will break as soon as you pick it up!.See More What in your kitchen do you wish wasnt visible from other rooms Q Comments 12 One of the goals of my kitchen remodel was to reduce the amount of stuff on the counters. We had limited storage space, so the counters had knife blocks, a toaster, canisters, and charging cables. Now that my kitchen storage has increased mostly by using space more efficiently, everything has a place out of sight the toaster goes in the super susan, I have a drawer with a knife insert, a drawer for all the canisters of baking supplies, rice, noodles, etc., and a cabinet with outlets inside for chargers. When everything has a convenient, designated spot, its easy to put things away. 6 years later, my counters are still clear, unless were in the middle of something. So plan your kitchen for the best function, plan for efficient and convenient storage, and all the views of your kitchen will be worth looking at. No way would I set up my kitchen to be less functional, just so I could look at a stove instead of the sink or whichever thing you want to look at, unless I did not ever cook..

See More mskathyny Original Author 8 years ago Thank you so much, dadoes!! You saved the day for me. I assume you dont use bleach. Or only powdered bleach in the II compartment Have a lovely, clean, holiday! Where is this How do I do this Oh, I guess Im just supposed to figure it out via trial and error. Also, dont use cheap fabric softener and then as little as possible. Do believe Ecover is plant based. I picked it up on the fly at the health food because the fragrance was OK. Pinky, Id love you to try it and get your opinion. Will send you some. I think it gives great results. Its my new first

choice. This video was actually pretty helpful its an an 8 minute demo on both the Bosch Axxis washer and dryer I actually thought you put the washing liquid in the right compartment, not the left despite dadoes comment, so the video was great to watch and get clarification. Thanks all, and thanks to mskathyny for the question clearly not a dumb one after all! Helps prevent detergent residue build up. Best to check the instruction manual to confirm which. Majority of manufacturers have them available at their web site via model number search. I let it run with no clothes and let it mix with the water for about 20 seconds and then add clothes. If so, does pod go in the far left compartment. Thumbs down and no thank you I just bought a second hand Bosch Maxx from my sister and is my first front loader. I agree with Terry re symbols instead of words to show what to do. Nuts! So it goes, Prewash, main wash and Bleach. What detergents are prewash. I pour softner im the 3rd compartment as it goes straoght into the washer. Usually dont bother with the middle or II compartment. Any specific help. I also pour bleach in the 3rs compartment or mix with the 1st compartment. I Use MELLALUCA products and love them. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers and factors that establish reviewer trustworthiness. Please try again later. MM 5.0 out of 5 stars Though many comments are true, after 1 month of using this machine, I think many comments are by people not used to a dryer. This is useful if you want to iron them or give for ironing all wrinkles can be easily ironed out as clothes are slightly wet and you don't have to use water spray. It senses humidity level based on these settings so dryness will be same regardless of type of clothes.

So you can reduce it but wrinkles will be slightly more than what you get by hang drying. To reduce wrinkles you can separate loads mixing heavy and thick clothes with thin ones creates non uniform drying. Light clothes dry first and wrinkles get set. Heavy clothes also crush light ones more. This is not required if you are giving all clothes for ironing anyway. You may have to wash them again without drying and iron them. Clothes marked wrinkle free can be worn immediately. Here is a way to use it with fully efficiency 1 Put in a full 8kg wash load at night. 2 Set the readyin timer If you are loading at 900PM, set Readyin for 9 hrs for washing to complete by 600AM. 3 In the morning clothes are washed and ready for dryer remove all heavy clothes like jeans, jackets, bedsheets for outside drying. Remaining numerous shirts, suits pants etc up to 5kg can dried in dryer. There are several advantages in this way i Using full capacity can reduce number of washings saving soap, electricity, water, time and work. On the other hand if you feel lazy just throw everything in machine at night and set for dry give the whole bundle to ironwala in morning and you are done! Addendum after 6 months use Monsoon use I continue to use above method setting the cycle at night with Ready in timer. In monsoons the dryer is turning out to be useful even for clothes that we do not fully dry. You can set it for wash only at night with Readyin timer. In morning set dryer cycle for 1 hr by pressing dry button till 60 min is set. Hang the clothes outside to dry fully afterwards. This way the clothes have less moisture and dry even when it is raining or cloudy and there is no wrinkling problem. PS Warranty issue I had purchased 1 year warranty from Amazon. The installation guy had

additional 2 year warranty and assured me I can get additional 3 year extended warranty total 5. I thought it would be good option as any spares parts are very expensive.

After I got both certificates I noticed both had same start date that means the warranties were running concurrently. On checking with them it turned out warranty extension for 3 years in not possible. It took 3 months of constant followup to get refund. Service ticket no. 476008798 I had high expectations from Bosch but let down on both product and service level. Suggestions for you, please take your chances. Thank you Amazon and Bosch for your unprofessionalism!! It is about 90% when dryer is used along with clothing. Sometimes the washing machine is filled with water even when it is not running. This may be the problem with only my product and not in general. The after sales support service is terrible. I started seeing the problem as mentioned above within 2 weeks after buying the washing machine. On calling the customer service one support engineer visited us and he said there is a problem with the water sensor and it needs to be replaced. Till now this has not been replaced even after doing numerous followups with customer service. Just to add I bought the item in Bengaluru. If you live in some small city then forget getting any help from BOSCH support. Worst service by bosch, not even answering customer care. Frustrating experience This is so ridiculous. If you are getting a bit moist clothes, reduce the load and the clothes will be crisp dry ready to be folded. The local support is poor with unprofessional and workshy customer service representatives. The machine is may be good but customer service is letting things down. This means fewer pollen particles, animal hairs and dust mites in your dried laundry. Our dryers, which are ideal for allergysufferers, have therefore been awarded the ECARF Quality Seal.
